

Specifications: Locker Specialties

Metal Lockers

Model 6200

Materials:

- Materials shall be as supplied by Buddsteel Architectural Products Limited at 519-392-6060.
- Metal lockers shall be factory assembled in groups of 2, 3 or 4 as required for site installation.

Fabrication:

Design: Lockers shall be single [double, triple, six] tier.

Size: 12" Wide x 15" Deep x 72" High
[12" x 18" x 72" Or As Specified]

Metal Finish: All parts shall be thoroughly cleaned before painting with a phosphoric acid based cleaner. Metal lockers shall be painted with a high quality powder coat finish. Locker bodies shall be fabricated using polyester enamel pre-painted pearl grey steel.

Standard Gauges: Lockers frames shall be 16 gauge, shelves and bodies 24 gauge and doors, sloping tops, bases and trim 20 gauge. Heavier gauges are available on request.

Doors: Locker doors shall be of an all welded double pan door construction with recessed aluminum pockets. Each door shall receive 14 gauge 5 knuckle hinges welded to the frame and riveted to the door. Numbers shall be engraved in sequence as required for the layout.

Frame: Locker frames shall be 16 gauge steel and resistance welded on all four corners to form a rigid structure. Each frame shall receive an 11 gauge hasp welded to the frame.

Interior Equipment: Each single tier locker shall receive one hat shelf and three coat hooks. [Double and triple tier include two coat hooks per compartment.]

Installation:

- Lockers shall be installed true and plumb by installers specifically trained to do this type of work.
- All finishing trim including dress end panels shall be installed.
- Number tags shall be installed as per the provided layout.
- All areas shall be left in a neat and tidy state upon completion.

Options Available:

- 4" High Recessed Metal Base
- 6" High Sloping Top
- Continuous Hinges
- Cylinder Key Locks
- Coat Rods
- Boot Shelf
- Galvanized Construction
- Heavier Gauge Body Panels
